

FIRST CAMPAIGN MEETING DREW APPRECIATIVE CROWD

**Alex. M. Manson, Liberal Candidate, Received With Enthusiasm--
He Delivered a Strong Address in New Hazelton--Appeal
Made for a Business Government**

New Hazelton turned out en masse last Saturday night to hear Alex. M. Manson, the Liberal candidate for the legislature. This was his first meeting after the convention on Friday where he was unanimously chosen as the Liberal standard bearer. Word was only received about noon on Saturday that a meeting would be held here that night, and the only notice that could be given was a verbal one, but the boys got busy and nearly everyone in town who was at all able to be present was there.

Mr. Manson was in excellent form and handled his subject in a masterly manner, much to the delight and approval of the audi-

ence. He opened by a reference to this being his first visit to New Hazelton in daylight and that his impressions of the town were indeed most favorable. He was glad to hear such favorable reports of the support he would receive from the electors in this town when the polls were finally opened. He was not asking anyone for their vote because he was a Liberal--this is not a contest between Liberals and Conservatives, but between the people and the autocrats who have been running the province into bankruptcy as fast as they possibly could--he asked for the support of every honest citizen for a business gov-

(Continued on last page)

CONCENTRATES

With the price of zinc over 11 cents there is a likelihood of the Owen Lake property being bonded and development work started this season. That property has the earmarks of becoming a big zinc mine.

Frank X. Frank writes the Omineca Herald from Vancouver that he will go into his coal property at Lake Kathlyn early in April and start the development work. He promises to furnish coal all along the G. T. P. this fall.

The Canadian ores at the Panama Exposition are attracting a great deal of attention. The exhibit is not only large and varied but it is tastefully displayed. In this exhibit are over a ton of silver-lead, copper-gold and copper-gold-silver ores from the New Hazelton district and the Bulkley valley, and other groups from other parts of Northern British Columbia.

It is understood that the syndicate owning the Sunrise on Nine Mile mountain has given a lease to a party who will undertake its development. On the Sunrise a large quantity of ore has already been mined and is ready for shipment and a good tonnage is in sight. The lease will provide for a good deal of development work being done to open up the property.

LIBERALS ARE UNANIMOUS IN CHOICE OF THEIR CANDIDATE

Alex. M. Manson The Standard Bearer--Convention was Harmonious and Enthusiastic--Excellent Reports From all Parts of the Omineca District.

Owing to the fact that the passenger train was held up last Wednesday night at New Hazelton until Thursday evening, due to a mud slide, the Liberal convention called at Smithers for Thursday afternoon. Delegates were present from all parts of the riding of Omineca and every one of them was most enthusiastic over the possibilities of an early election which will enable them to tell the Bowser-McBride machine just what they think of their system of administration. From every quarter of the riding the best reports are received, and if half true, the Liberal candidate will have an immense majority.

After the preliminaries were completed the convention was opened for nominations. Only one name was presented, that of Alex. M. Manson, and he was made the unanimous choice.

The new candidate was enthusiastically received when he was called upon. He thanked the delegates for the confidence that had been placed in him and he made a plea for support at the polls on the grounds of a business government for the province and the people.

In the evening he addressed a public meeting, which was well attended, and the candidate received a great reception from the audience.

A THOUSAND MEN ON THE RAILWAY

Ballasting Operations Through District Will Be Started in Few Weeks and Occupy Some Time

Word has been received in the district that the Grand Trunk Pacific Railway Co. is preparing to resume ballasting operations on the main line, and that the line through this district will be put in shape at the earliest possible date. It is understood that within the next few weeks something like a thousand men will be employed between Skeena Crossing and about five miles east of New Hazelton. These men will be in this district for several months, as there is an immense amount of work to be done before the track is in shape for the fast trains. Such a force of men should help the business situation here materially.

WILL BE LONG SAYS GEN. FRENCH

Paris, March 23--Gen. French is reported to have stated in an interview, "It will not be a long war. The spring promises well for the allies. We believe that a definite and decisive victory awaits us at the end of these hard months of war. Ammunition is pre-requisite of all progress and Germany needs it more than we do."

Convincing Greece

Athens, March 25--Hestia publishes a statement that President Poincaré has assured the Greek minister at Paris that coming events will convince Greece of the necessity of abandoning her neutrality.

Children's Services

The services in the Presbyterian church next Sunday evening will be for the children. The parents are requested to have all their children present. There will also be a baptismal service.

Allied Fleet Resumes

London, March 25--A Tenedos correspondent says--Mine sweepers are again at work in Dardanelles, but the wind is still too high for other naval operations.

PRZEMYSL CAPITULATES TO RUSSIANS GARRISON OF 117,000 FORCED TO QUIT

Important Galician Town Besieged Since Last September by Russians Finally Gave Up--Six Russian Army Corps Now Free for Further Incursion Into Austria and to Make New Offensive Into Germany

Petrograd, March 23--Przemysl garrison which capitulated to the Russian army today, surrendered without a fight. The Austrians hoisted the white flag over the fortress which was said to be on the point of surrender on a number of occasions. This caused little surprise as it was generally known that it was in a terribly weakened condition, without food or ammunition, and its endurance was only question of days. The war office advises of a report that nine Austrian generals were taken, and more than 300 officers and 50,000 men. The Russian general commanding the investing army has been decorated with the St. Georges cross.

London, March 23--According to a Petrograd despatch Przemysl garrison opened negotiations for surrender on Saturday, but

nothing came of it. Then during the night of March 20-21 a sortie was attempted. This was the last straw. Throughout Sunday negotiations for terms proceeded and the surrender was effected Monday morning. The garrison consisted of a hundred thousand.

Petrograd, March 24--Commander Kusmanek at Przemysl surrendered nine generals, 2,593 officers and 117,000 men, 2,400 guns, including cannon. An imperial edict changes the name to Permyshl. The Russians had six army corps in the investing army.

Petrograd, March 25--Official On the right bank of Harew river on Skwa-Orzyo front, including the right bank of the river Orzyo, engagements for the possession of isolated points of vantage are assuming general and

more desperate proportions. The Germans, who brought up strong reinforcements here at the expense of their other fronts are stubbornly defending their positions by deadly fire and are opening new and vigorous counter attacks. Our troops are making slow, but sure, progress, capturing trenches and heights. Among noteworthy actions have been hand to hand engagements fought near Vakh-Karask and Jednorozico, where our troops, who attacked with self-sacrificing valor, gained the day. In the Carpathians our troops are advancing. They seized today several fortified heights on the front between the roads leading to Barfeld and Uzack. Everywhere we have repulsed the counter attacks of the enemy. We took during the day over 4,000 prisoners, gun and dozens of guns.

Zinc Prices Soaring

The price of zinc has advanced very materially during the past few months and zinc properties in the Coeur d'Alenes are now being operated at a profit. O. B. Wallace has made a success of the Interstate which he got under way some time ago and it is now paying regular dividends. Inquiries are now being made in this district for zinc properties and there is a strong probability that the development of some of these will be taken up this year.

INCREASING CROPS IN NEW HAZELTON

Citizens Prepare to Produce All Their Own Vegetables With Some to Spare for the Markets

It is pleasing to see so many citizens undertaking the spring cleaning at such an early date. In all parts of the town the yards are being all cleaned up and the ground made ready for the crop that will be put in this season. It is safe to say that the increase in production in this town alone will be over three hundred per cent. The New Hazelton citizens should aim, not only to have all their own garden produce, but to have some to ship to the market in Prince Rupert. If there is an indication later in the season that vegetables will be harvested in sufficient quantities, arrangements will be made to ship them to Prince Rupert at the best possible rates.

Another object which should be given serious consideration is the growing of vegetables, flowers and poultry to exhibit at the Prince Rupert and Telkwa fairs. It is very interesting work and exceptionally good advertising. New Hazelton has not yet been represented at either of these fairs and it is time now to make a start.

Vancouver Beats Ottawa

Vancouver won second straight game from Ottawa for the world hockey championship by a score of 8 to 3.

German Steamers Lost

London, March, 23--A Copenhagen despatch says that during a big storm two big German merchant steamers were lost off the coast of Denmark.

FRIDAY, MARCH 19, 1915

LET New Hazelton cast a unanimous vote for Alex. M. Manson and business government.

BOWSER is one of the candidates for his own machine in Vancouver. He will find considerable opposition from the Dominion Trust Depositors Association which has just recently been organized to oppose his election.

ALEX. M. Manson is the unanimous choice of the Liberals in this riding. No other name was mentioned, and every Liberal, as well as a great many Conservatives and all Independents, are working hard for his election.

THE Liberals are getting strong candidates in the field in every riding in the province and they will put up a fight that has never yet been equalled. The Liberals are out to win and to save British Columbia and the people from utter ruin.

IS there one man in New Hazelton who can vote for the Conservative party—the party that has done its utmost to ruin this town and to ruin every man who has come here to live? No one can deny that the Conservative government and the Conservative machine have stuck the knife into New Hazelton, and on every side there is evidence right now that it is their intention to

continue to knife this place. Surely there is no one who will sit down and allow the obstructionists to continue their work when the opportunity is at hand to get a square deal for the town.

THE Conservative party is divided against itself in the Omineca district. Too many candidates want to grab off the easy money, believing that if they are successful in carrying the country this time it will be their last opportunity. Nothing like getting all they can while the getting is good.

JOE Merryfield uttered the truth when he said. "the Liberals are to be killed off." Bowser and McBride and their machine have done their utmost to accomplish that end in the past, and if they are given another term at Victoria there will be more than Liberals killed off. British Columbia will not be able to support even the Tory heelers in a few more years under the present rule.

AT this writing Bowser and McBride have not got their difficulties settled, and no one can say just when the election will be held. Bowser told a Conservative meeting in South Vancouver that it would be sometime before next March. In other words, "It's none of your ——— business; I'm running this show, and if you say much I'll pass legislation permitting me to continue at the head of the government forever."

FRANK Dockrill and R. S. Sargent are bucking each other for the Conservative nomination. Both are fighting hard for it. The feeling between the two factions was so bitter that Joe Merryfield, the chief patronage man in the north, was sent for, and last Saturday night he met the boys in Smithers and tried to straighten things out. He did not succeed in getting either aspirant out of the field. That has to be settled this Saturday evening when the convention will be held.

SIR Richard's famous civil service has indeed reached the point of perfection—in party politics only. It is going some when officials holding responsible positions take part in Conservative conventions and meetings and nominate candidates, buy membership tickets to pack the meet-

JOHN LINQUIST

TENTH AVE. — AT — MCLEOD ST.

ACCORDING to the Vancouver Province, W. J. Bowser had a most embarrassing time at the South Vancouver Conservative meeting. He can expect a few more of them before the present campaign is over with.

EXPECT BIG BATTLE ON EASTERN FRONT

Petrograd, March 23—With the capture of Memel the Germans were simultaneously expelled from Taurigen and flung back on their frontier.

Information from an Austrian source to Copenhagen says that Russians are preparing for violent offensives in the Carpathians. They have assembled three quarters of a million men for this purpose and will make an attempt to break effectively the Austrian line. A gigantic battle is expected as Austria is bringing up all possible reinforcements to meet the attack.

OPPORTUNITIES FOR INCREASED PROFIT BY AN INCREASED LOCAL PRODUCTION

All through the dominion of Canada a campaign is being carried on by the dominion government and the press to encourage greater production of food stuffs. The Herald has joined cheerfully in this campaign and has from time to time published articles enlightening farmers and others as to the needs of this country and the Motherland, and giving information as to the best methods to follow. In future issues further articles will appear.

At the present time there are many making preparations in this

town and district to do their share in increasing the production of food stuffs. There are, also, many who are wondering what they can do. It is a fact that it would be almost out of the question for farmers and the town people to think of transporting their produce across the continent and then across the ocean. The population in the northern part of British Columbia is not yet sufficiently large to secure rates that would permit of such transportation. There is, however, a big work ahead of every able bodied

man in the entire country. It would surprise everyone were it known the amount of farm produce that is imported into this country every year, and at prices that would well repay anyone to produce these goods here.

If New Hazelton, Kispiox valley and the Bulkley valley produces sufficient to supply all local requirements and thus shut off the importation, the local people would be doing their duty and would also be making a good business and considerable profit for themselves. The goods that are imported would then be available for transportation to European countries, so that, indirectly, the new north would be helping to supply the needs of the millions who are suffering from the ef-

fects of the war.

Every man in the town and every man in the district should make it his aim to produce in his own garden, or on his own farm, sufficient vegetables of all kinds for his own use, and possibly have some to spare for those who have no ground or land.

Poultry and eggs are also in demand and there is always a good price offered, and a ready market. Poultry as food is unequalled by any other kind of meat, and there is no reason why it cannot be produced in this district at a price which will both compete with imported meat and give the producer a good return. Milk and butter are also in demand and at good prices.

All these things can be produced in this district, and the man who has the nerve to go to work and do something along these lines will be well repaid, not only from a financial standpoint, but he will also be employed; he will feel a great satisfaction with himself in knowing that he is doing something and he will have no spare time on his hands to bemoan the hard times and find fault with his neighbors, who do things, and maybe are a little better off for that reason than himself.

The times are not hard for the man who is working, and if you cannot find a job, do something for yourself. Until you do start something, your condition in life will not improve for a number of years. The sooner the individual realizes that, the sooner the apparent hard times will disappear. Get busy men and produce something. The Omineca Herald has advocated this many times in the past couple of years. This is a country for producers; drones and parasites cannot make good.

Fat and Lean

In the busy world of dairying even a few meagre calculations show great differences, whether in cows, their owners, the land, the bank deposits or the test of fat, etc.; fat and lean are mixed, good results with poor, even on adjoining farms, even in two stalls in the one stable. One owner gets perhaps 200 pounds of milk from each lean, hungry acre; a neighbor, with better methods, produces the fat total of seventeen hundred pounds of milk per acre, keeping sixteen good cows on a well-tilled, eighty-acre farm. One milk producer, with poor grade cows, never tested, possibly never well fed, gets the lean average of less than three thousand pounds of milk per cow; another producer, who is a real dairyman, revels in the knowledge of each of his sixteen cows giving over eight thousand pounds of milk that will test fairly rich in fat.

Then when it comes to feeding for profit, not merely for existence, we find one man with a hundred pounds of milk costing him only 50 cents for feed, but a neighbor has to admit the impeachment of milk costing him per hundred at least 90 cents, perhaps even a dollar. So one will make the fat profit above

feed of over thirty dollars per cow, while his neighbor is down to the lean margin of only three dollars. Why do such amazing differences occur? Primarily because dairymen have not studied each cow individually. Dairy records alone can shed light on these problems. Milk and feed record forms—simple and easily kept—may be had free from the Dairy Division, Ottawa. Apply today, and make each cow you own earn a good fat profit.

Advertise it in the Herald.

2nd AVE. - PRINCE RUPERT

SYNOPSIS OF COAL MINING REG- ULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

You won't need to have a moratorium fort to slink behind

Are you keeping pace with the demands of modern progressiveness in its application to business and to business principles? Are you conducting your business in conformity with the dignity that is so essential to success; are you living up to the dignity of your calling? Is your character reflected in all the dealing you have with your customers? If the latter be so, it would be next to impossible for you to place the value to your institution in dollars and cents of having these facts known to those with whom you have, or hope to have, business dealings of all kinds.

This is where GOOD PRINTING comes in

The quality of his printing readily attests to the character of the man, and also establishes his commercial standing. Your business sagacity and the quality of the goods you sell—your very right to appeal for public support—are reflected in your printed matter. Time was when business men were satisfied to do their correspondence on a

piece of brown wrapping paper, and break forth in a tirade of abuse because the government demanded that it be enclosed in an envelope. And they got away with it then. But imagine the reception you would get were you to apply for a line of credit from your supply house in a letter written on such paper.

Drop in and see our samples of Better Printing or write for our book of Letterhead Suggestions

OVERHEARD AROUND NEW HAZELTON

Lyle Wilson left Thursday for the coast.

Dr. Badgero and Dr. McLean left Thursday morning for a holiday in the south.

John Pooler, Prince Rupert, of P. Burns & Co., was in town this week on business.

Mrs. Sawle will leave Sunday to spend a couple of days with Prince Rupert friends.

On Saturday last a daughter was born at the hospital to Mr. and Mrs. H. H. Little.

Mrs. E. B. Tatchell leaves on Sunday morning for Vancouver

where she will visit for a few weeks.

There will be a meeting of the baseball club on Wednesday evening next, at 8 o'clock in the Assembly hall. Everyone attend.

A meeting will be held Saturday night in the assembly hall for the purpose of organizing a lawn tennis club. All interested in the game are requested to be present.

The Conservative convention is announced for Saturday, March 27 when efforts will be made to select a candidate to contest the Omineca riding. A hot time is anticipated.

The provincial government's road department has received a second carload of oats this year. The government horses hauled the grain this week and that is

about all the work they have accomplished since they hauled the last carload in the winter.

Norman Carry has severed his connection with R. Cunningham & Son after several years service and in a few weeks will leave for Vancouver where he has secured a position. His mother will accompany him.

Frank Dockrill, of Vancouver, was in town the latter part of last week extending the glad hand to the boys. His reception was not particularly encouraging. Likewise that extended to R. S. Sargent on Monday. They are both looking for support. Mr. Sargent is reported to have admitted that the government had not done much for this community up to the present.

One lone man spent a few days on the big hill entering the town from the government low level bridge. As usual in the spring the water runs down the road cutting gutters in the roadbed, and, just as usual, the government system of repairing it was followed, viz., the slop from the sides was thrown into the centre to be washed out again by the first rain. The government still refuses to build a road on the level, where it is impossible for the rain or spring thaw to wash it out.

FIRST MEETING IS WELL ATTENDED

(Continued from first page)

ernment. He did not promise any wonderful things because the province had got to such a low ebb that it would take a little time to clean up the mess and to put the business on a basis that would permit of a new start. He would say that the Liberals could bring the province out of the mire and make it the glorious place in which to live and do business that nature had intend-

ed it should be, and that we would yet see the day when this province shall be recognized as the greatest in the Dominion.

Mr. Manson stated that he would not support the patronage system adopted and perfected by the present government. If he is selected to represent Omineca riding he will consult the people as to their wants and not be put through his paces by a Liberal association or any other organization. He would represent the people and endeavor to secure for them what they wanted and what was in the best interests of the whole riding.

Frequently Mr. Manson was warmly applauded during his address and at the close the applause was enthusiastic.

The chair was occupied by F. C. McKinnon. W. J. MacKenzie spoke for a few minutes on woman's sufferage.

The meeting closed with cheers and a tiger for the candidate.

London, March 24—A despatch from Saleniki says—The Italians are fortifying Dedekanez Islands which were formerly Turkey's and situated in Tehean Sea, with heavy calibre guns, and numerous steamers are said to be taking munitions there.

Paris, March 25—A Havas despatch from Athens says that the Turks are fortifying Luleburgues, forty-five miles south-east of Adrianople and other places in fear of a possible attack by Bulgaria. An army is training at Luleburgues under German officers and heavy artillery has been sent from Constantinople to Durkos on the Black Sea.
